"THE HOUSE THAT CONSCIENCE BUILT"

WHEN in any city you find a long established and prominent business house (it matters not what particular line of trade) that has grown, steadily and consistently, into its present dimensions from a very humble beginning, you are safe in assuming that its methods and policy are sound.

The mere fact that it has so grown argues that it has been giving satisfaction, for "you cannot fool all the people all the time."

To those to whom we may be strangers, we would say that the history of Ryrie Bros. Limited covers one-half a century; that it had its birth in a little shop of ten-foot frontage, within one hundred feet of where it now stands, and that it has grown steadily and healthily, until to-day it is recognised as one of our vigorous national institutions.

This has not come by chance, but is the natural outgrowth of the policy followed throughout all these years.

We have always made our business a matter of conscience. The pleasing of a customer means more to us than the immediate making of a sale. No goods are sold by us that we cannot confidently recommend, and, for our mail order patrons, we prepay all carriage charges, and cheerfully refund money in full upon the return of the goods should they not have met with approval.

We recognize the fact that the jewellery business is largely a matter of confidence, unless the purchaser himself happens to possess expert knowledge, and we want to assure you that such confidence imposed in us will never be abused.

(*Signed*)

James Ryrie *President*

"She" is but Human

AFTER satisfying herself as to the beauty of her new diamond ring her first thought is, Where did he buy it? *She is but human.* It is only natural that she should want to be sure that its quality is above suspicion. *She has this assurance in any ring bought from us.*

Size is only one of many factors determining the value of a diamond. A diamond of a given size may be cheap at $500 or very dear at $100.

Our stock of diamonds has been selected by us in person from the diamond cutters in Europe. This guarantees the very finest in quality and saves you all middlemen's profits.

Because of this, it is just as well, unless one is an expert, to place the matter in the hands of a house of acknowledged standing.

All the diamonds shown on this page are of uniformly high quality. In the whole range, from $25.00 to $500.00

YOU COULD SEND A CHILD.

We pride ourselves upon the fact that the "Ryrie" business is conducted upon such lines that a little child ignorant of all values, might be sent to us for the purchase of a diamond, and yet receive exactly the same treatment as the most expert connoiseur.

For the great majority of our patrons, the purchase of a diamond is largely a matter of confidence, and such confidence placed with us is never abused,—"the truth, the whole truth and nothing but the truth" always awaits you.

We have expert knowledge of the diamond, and purchase direct from the cutters in Europe, thus affording you the very best, both in quality and value.

Wedding and Signet Rings

WEDDING RINGS have been in use from very early days. At one time a signet was set in the ring to imply that the spouse had the right of sealing up the household goods and, occasionally, with similar import a small key formed a part of the ring.

The signet ring was, of course, originally the actual seal of its owner. We often read of a king's signet being handed to a servant as a symbol of the royal authority.

Birth Month Finger Rings

THE ROMANS held that birthstones had peculiar power, especially in warding off disease and danger. To this belief the modern custom of the birthstone ring owes its origin. This year the usage is very much in vogue and, as a gift, a birthstone has a novel and personal touch.

With the exception of the diamond rings which are mounted in 18-kt., all the settings are in 14-kt. gold. All the pearls on this page are "whole" pearls.

We do not stock rings in sizes larger than 8, those under $5.00 no larger than size 6. Larger sizes are made at an additional charge of $1.00.

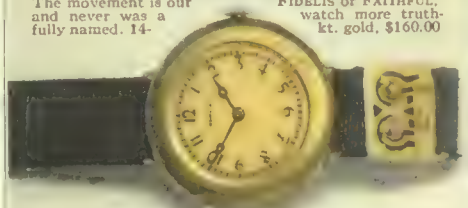
B229001. The first impression made upon you as you look at this watch is that it is "out-of-the-common" in design—one of the reasons why it is such a great favorite. The case is handmade, and by taking a side view of it, you will see why it is known as the "barrel" shape. The movement is our FIDELIS or FAITHFUL, and never was a watch more truthfully named. 14-kt. gold, $160.00



B229003. Set side by side with many lower priced watches, it is perhaps not easy for an "outsider" to appreciate the higher price of this watch. The actual value is there, however, as the movement is one of our very best, the CLIVE. It commends itself strongly to those who like "the plain but good,". Price in 14-kt. gold, $90.00

B229005. You will notice this watch is unusually small in size. This adds somewhat to its neatness, whilst preserving at the same time its timekeeping qualities. The movement is our FIDELIS, that is, FAITHFUL, one of the very finest movements that we can give you. Although not a low-priced watch, it is one of our very best values. Price in 14-kt. gold, $125.00

"Things Have Changed"

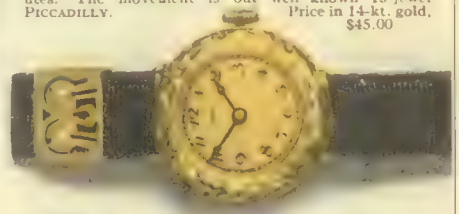
THE telephone at one time was enjoyed only by the favored few. To-day it is recognized as a great convenience—in fact, an absolute necessity, in every day life.

Just so with the bracelet or wrist watch. It is no longer an experiment, but is recognized as an indispensable convenience—every day and every hour of every day it performs its quiet and useful service.

The wrist watch becomes a fixed habit in the daily life of those who once try it, and they wonder how in the world they ever managed without it. No forgetting it, no fumbling in the pocket to find it, there it is, always waiting patiently at your service, and, if it is of our quality, always answering your enquiry truthfully.

B229002. This wrist watch, all will agree, is decidedly unique. You might travel for days without seeing another one like it. We consider it a perfect beauty, and it is quite as good as it is beautiful. We have platinum and diamond-set watches costing several thousands of dollars each, in which the same movement is to be found. A truly wonderful watch. Price in 14-kt. gold, $225.00

B229004. As you will observe, this watch is, like the preceding one, mounted upon a silk ribbon with gold fastener. For adjusting to the wrist it is a combination of simplicity and security, and when necessary the ribbon can easily be renewed within a very few minutes. The movement is our well known 15-jewel PICCADILLY. Price in 14-kt. gold, $45.00



B229006. To those who prefer a little ornamentation, this wrist watch will make a strong appeal. It is in exquisite taste, not at all overdone, the back of the case being perfectly plain. The movement is our reliable friend the PICCADILLY. Like all the other ribbon bands shown, it can be adjusted in a moment to any wrist. The fastening is, of course, 14-kt. gold. Price in 14-kt. gold, $55.00

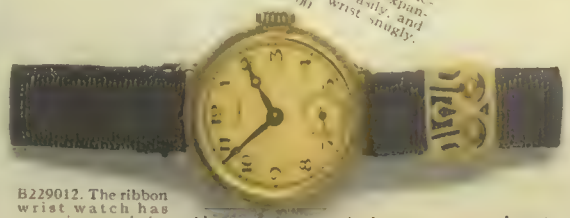
B229007. The movement of this wrist watch is really something exceptional. It is known as our CLIVE, and will always bring credit to us and satisfaction to you. The bracelet is our most approved expansion style, fitting any wrist perfectly. There is also an inside cover or back case, which protects against injury and dust. Price in 14-kt. gold, $100.00

B229008. The movement in this gold bracelet watch is our 15-jewel PICCADILLY, an old and tried favorite, one that we can confidently recommend as a strong and accurate timepiece. The bracelet is known as the expansion style—that is, it slips over the hand easily, and then automatically contracts to fit any wrist snugly.

B229009. The same as the above, but in 10-kt. gold. Price in 14-kt. gold, $60.00. The same, in 10-kt. gold, $55.00

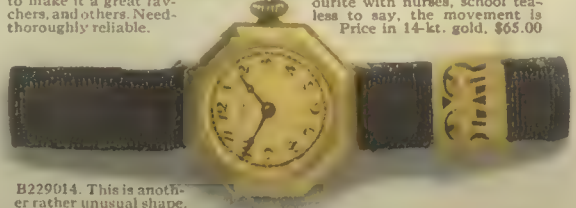
B229010. The only difference between this wrist watch and B229001 is that it shows a very neat "thread" ornamentation instead of being perfectly plain. As the great majority of our expansion bracelets are made in our own workshops, you are assured the highest quality of workmanship at the lowest possible price. Price in 14-kt. gold, $60.00

B229011. The same, in 10-kt. gold, $55.00



B229012. The ribbon wrist watch has grown immensely in popularity. It is very quiet in appearance, and most comfortable for wear. There is one little feature in this number not generally found in ladies' watches, namely, it has a seconds hand. This helps to make it a great favourite with nurses, school teachers, and others. Needless to say, the movement is thoroughly reliable. Price in 14-kt. gold, $65.00

B229013. This watch, although very quiet in appearance, will attract immediate attention because of its unusual shape. It is perfectly square with cut corners, and is in exquisite taste throughout. The movement is our faithful FIDELIS. Although by no means our lowest priced watch, you would never regret the investment. Price in 14-kt. gold, $140.00



B229014. This is another rather unusual shape, and at a comparatively moderate price. It is known as the "Octagon," and contains our favourite 15-jewel PICCADILLY movement. Like all the other fasteners shown on this page, this is of 14-kt. gold, very secure and very workable. Price in 14-kt. gold, $60.00

B229015. "Cushion shape" is the name by which this watch is known. It is neither square nor round, but is really a combination of the two shapes. The dial, you will notice, is exceptionally clear and readable, whilst the movement is our old reliable 15-jewel PICCADILLY. Price in 14-kt. gold, $75.00

B230001. This watch is one of our best gold-filled. It is mounted on a silk band with an appropriate fastener instead of an expansion bracelet. The ribbon can be renewed when necessary in a few minutes. $35.00

B230003. Both the watch case and fastener are of 10-kt. gold. The movement is a 15 jewelled one that may be depended upon to give good satisfaction. The watch has a gold dial. $35.00

B230005. Both the case and fastener of this watch are of solid 14-kt. gold. The movement too is an exceptionally fine one, being known as our 15-jewelled VERNON, with a gold dial. This will meet the wishes of those who want something really sensible and good. $75.00

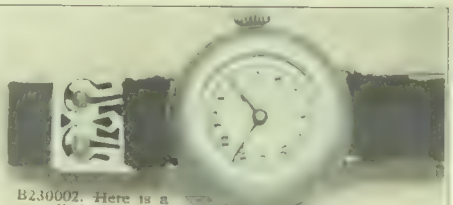
"Guaranteed—of Course"

THE expression, "Guaranteed—of course," is a recognized slogan of this business.

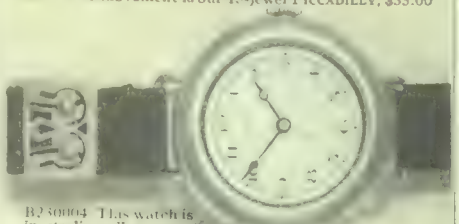
If we have the slightest suspicion that any article offered to our buyers will not prove thoroughly satisfactory to our patrons—whatever attraction it may offer—it never finds a place in our stock.

We appreciate the fact that the greatest asset of our business is the confidence of our patrons and we spare no efforts to see that this is always merited.

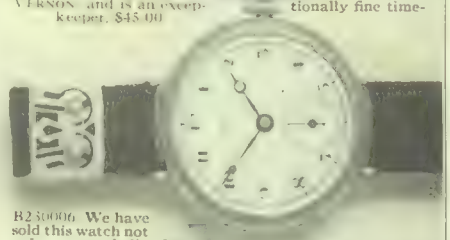
This is specially true of watches, for an unsatisfactory watch in the pocket is the poorest sort of recommendation. For our sake, therefore, as well as your own, every watch sold by us is "Guaranteed—of course."



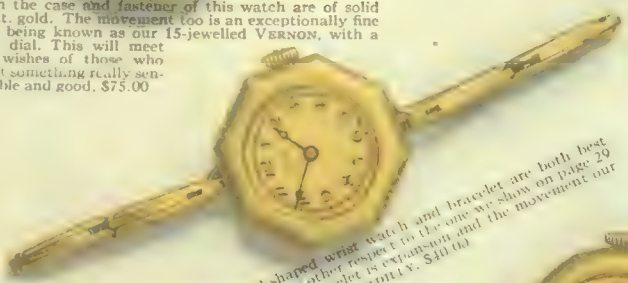
B230002. Here is a neat little watch in sterling silver, with silk ribbon and sterling silver fastener. The movement is our 15-jewel PICCADILLY. $35.00



B230004. This watch is in sterling silver case, and although stouter than the others on the page, it has not the slightest suggestion of being clumsy. The movement is our 15-jewel VERNON and is an exceptionally fine timekeeper. $45.00

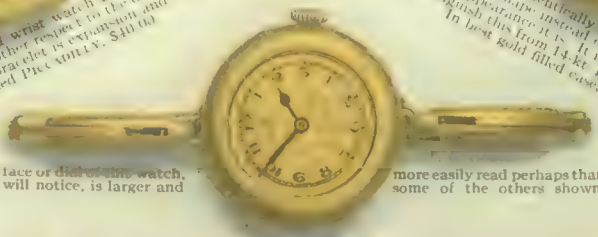


B230006. We have sold this watch not only to many ladies, but to many men engaged in banks, offices and other indoor work, and it has made a great reputation for itself. There are no frills about it, but it is a good, plain, sensible wrist watch. A most reliable 15 jewelled movement. Price in sterling silver case, $20.00. Can be supplied with either silk ribbon or leather strap.



B230007. This octagonal shaped wrist watch and bracelet are both best gold-filled and similar in every other respect to the one we show on page 29 in 14-kt. gold at $60.00. The bracelet is expansion and the movement our 15-jewelled PICCADILLY. $40.00

B230008. This watch has identically the same movement as B230007 only that it is round in shape instead of octagonal. Please observe how neat and dainty in appearance it is. It is practically impossible for even an expert to distinguish this from 14-kt. gold when worn upon the wrist. In best gold filled case, $35.00



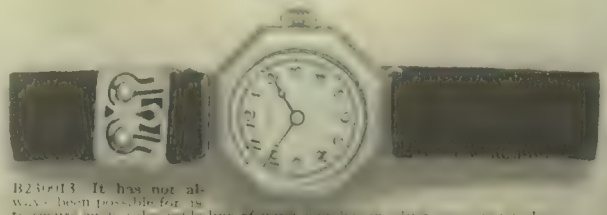
The face or dial of this watch, you will notice, is larger and more easily read perhaps than some of the others shown.

B230009. This also is our best gold-filled, and has a 15-jewelled movement. It is also furnished with the silk band and artistic gold-filled fastener if desired at the same price. Please mention your preference when ordering. $25.00

B230010. This watch is very similar to B230007 with the exception that a silk band and fastener take the place of the expansion bracelet. These bands have become very popular of late, being both comfortable and secure. The somewhat unusual octagonal shape of this watch commends it to many who prefer the out-of-the-ordinary. Best gold-filled. $40.00

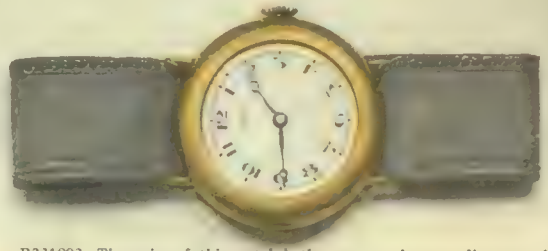
B230011. The square shape of this watch gives a very pleasing effect and makes it one which is bound to be appreciated as a gift. It has a 15-jewelled PICCADILLY movement and is "dressed" in a sterling silver case similar in design to B230012. The price is very moderate. $35.00

B230012. When you look at this watch [illegible] you will be pleased with it. [illegible] is the almost universal experience of those who view it in our show case. It is a perfect delight [illegible] to look at. [illegible] design with no sharp [illegible]. In 14-kt. gold case with a 15-jewelled PICCADILLY movement, it really leaves nothing to be desired in a medium-priced watch. $60.00



B230013. It has not always been possible for us to secure such a [illegible] line of wrist watches in silver cases as we show here. The little octagonal shape is a perfect beauty and as dainty as you could desire. The movement is our 15-jewelled PICCADILLY exactly the same as we use in our solid gold and gold filled cases. This one is in sterling silver and is priced at $35.00

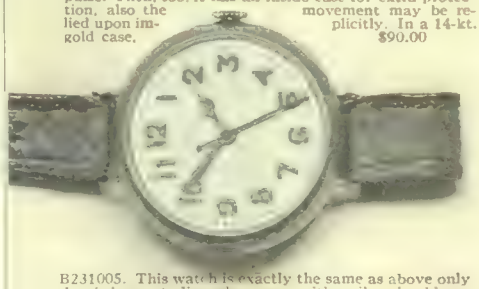
B231001. Both sensible and serviceable is this wrist watch, especially for men's wear. The case is 14-kt. gold, very strong, with an inside back case of the same quality, which gives added strength and protection from dust. The leather bracelet has also a heavy 14-kt. gold buckle. The movement is our RANLEIGH, a splendid timekeeper. Price $75.00



B231002. The price of this watch is the same as the preceding one, the difference between the two being in size only. This one is slightly smaller, making it more suitable for ladies' wear or for men doing light work. This also has an inside gold back case, giving extra protection. Movement is our VERNON. Price, $75.00

B231003. This "tonneau" shaped watch is one of our most expensive men's wrist watches. It looks the part and plays the part of a really high-class watch. The case is hand-made from heavy 14-kt. gold; the shape is quite unique, the dial figures are very distinct and the movement is our well known CLIVE. You could not ask for a better watch. $140.00

B231004. A watch which would make an excellent presentation for either a nurse or doctor, because of its long central sweep seconds-hand for taking the pulse. Then, too, it has an inside case for extra protection, also the movement may be relied upon implicitly. In a 14-kt. gold case. $90.00



B231005. This watch is exactly the same as above only that it has a sterling silver case, with a silver buckle on the strap. The cost is just half as much. Price $45.00

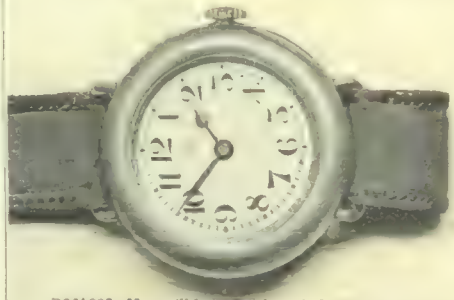
B231006. The movement in this watch is our 15-jewel ST. JAMES, a splendid timekeeper. The case is our best gold-filled and its "cushion" shape is quite out of the ordinary. Very inexpensive at $45.00

B231007. We can supply the same watch, but in a sterling silver case, for $40.00

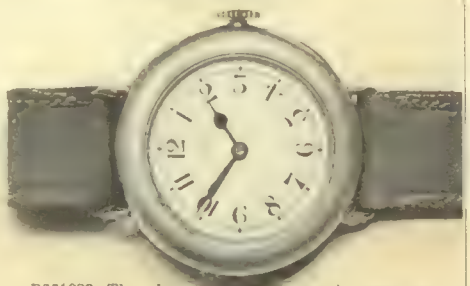
A Watch is Different

BUYING a watch, something that is to be handled and looked at and depended upon scores of times every day in your life, is something entirely different from buying almost any other personal effect.

Clothes are for a season or two only; hats become old and old-fashioned; shoes wear out, alas! too soon; neckties and linen become *passé*; but a watch is always with you, regulating your movements by night and by day. A wise man, therefore, can save money and save annoyances innumerable along life's journey by purchasing a watch of sterling integrity. This is the only kind we offer. Further, bear in mind every watch leaving this house is "guaranteed—of course."



B231008. You will have hard work finding the equal of this watch at the price at which we sell it. Thoroughly substantial and thoroughly reliable as a timekeeper. The case is sterling silver throughout, with an inside back which affords extra protection against injury and dust. Price in sterling silver case, $20.00

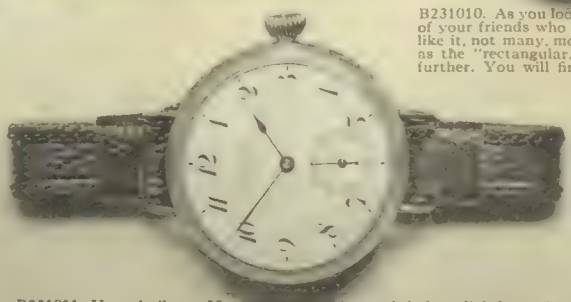


B231009. There is very little difference in appearance between this watch and the preceding one. The movement, however, is our 15-jewel ST. JAMES movement which, because of its high qualities, we use in many of our best solid gold wrist watches. This one is in sterling silver and sells for $30.00

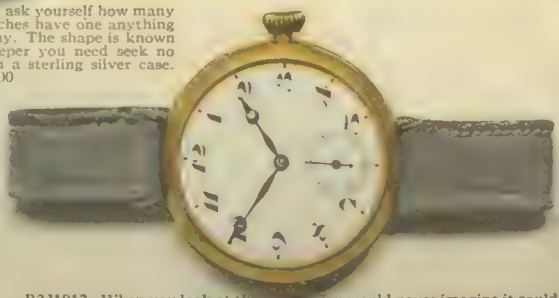
Just notice the fine clear distinct dial figures it has.

We consider it one of the best wrist watches that we sell.

B231010. As you look at this watch, ask yourself how many of your friends who wear wrist watches have one anything like it, not many, most likely not any. The shape is known as the "rectangular." As a timekeeper you need seek no further. You will find it all here in a sterling silver case. It sells at $50.00



B231011. Very similar to No. B231010. This watch is just slightly smaller in size and without inside case. It is equally adapted for ladies' wear or for men engaged in light work. Price in sterling silver case, $20.00



B231012. When you look at this watch you would never imagine it could be priced so low and yet the case is our very best gold-filled and the movement is our 15-jewel ST. JAMES. Price in best gold-filled, $25.00

B232002.
$90.00

B232002. Unless you were an expert watchmaker you could not distinguish this from the preceding watch. The cases are identical, the only difference being that this movement is our 17-jewel GREENWICH, a really high grade watch, although costing $5.00 less. Price in 14-kt. gold, $90.00

B232004.
$60.00

B232004. This is very similar to the preceding watch, only it is our best gold-filled case, and not quite so thin for the pocket, very comfortable none-the-less. Price in best gold-filled, $60.00

B232001. This watch is delightfully "pocketable," if there is such a word. By that we mean it is so moderate in size, so strong, and at the same time so thin that you would hardly miss it from your pocket. It has a very high-grade movement, our 19-jewel DOWNING STREET, with Breguet hairspring, patent regulator, etc., and is adjusted to five different positions. The case is of 14-kt. gold and very attractive in its simplicity. Price in 14-kt. gold, $95.00

B232003. No illustration can do justice to this watch. As shown here, it looks much the same as many other watches. To prize it at its true value you must see it, handle it, and try it — a real aristocrat among watches. It is an extra thin model, 14-kt. gold case, so "comfy" for the pocket, whilst the movement is a 17-jewel adjusted, with Breguet hairspring, compensation balance, and patent regulator, etc. Price in 14-kt. gold $150.00

B232005. For a medium priced attractive and serviceable watch this should commend itself to you. The movement is our 16-jewel CATHCART, with Breguet hairspring, compensation balance, etc., and it is housed in a 14-kt. gold case that is good for a lifetime. Price in 14 kt. gold, $70.00
B232006. Exactly the same 14-kt. gold case as the last mentioned, only with our 15-jewel, Breguet hairspring, compensation balance, SERVICE movement, costing $5.00 less. Price in 14-kt. gold, $65.00

Briefly Stated

IN explanation of several of the technical terms used on these watch pages, we would say:

By the *Patent Regulator* device it is possible to regulate a watch down to a much finer point than with the regulator used in many other less favoured watches.

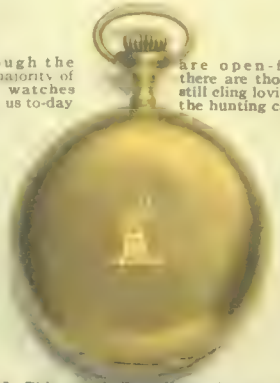
Compensation Balance. By a combination of steel and brass, cut through at a certain point and fitted with tiny weighting screws at proper intervals, the expansion and contraction caused by changes in temperature are overcome and a regular rate maintained. This rating would be impossible with a solid balance wheel.

By *Adjustment to Heat and Cold* we mean, before leaving the factory every such watch has been tested out in a refrigerator as well as in an oven, to provide for all possible changes of temperature whilst the watch is being worn.

The *Breguet Patent* is an arrangement of the hairspring which guards against any sudden jerk or jump putting the coils of the hairspring out of position, and thus suddenly interfering with the accuracy of the timekeeping.

Again we emphasize the fact that this house handles only such watches as it can confidently recommend.

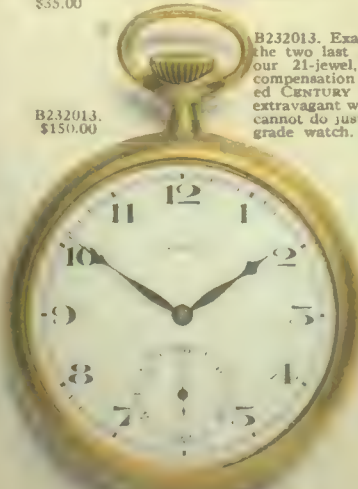
Although the great majority of ladies' watches sold by us to-day are open-faced, there are those who still cling lovingly to the hunting case.



B232007. This watch is well worth a second look. The case is our best gold-filled, perfectly plain and adapted for crest or monogram, if desired. The movement is our ST. JAMES, a good 15-jewel timepiece. Price in best gold-filled, $30.00
B232008. The same case exactly as the last mentioned, only with a still higher grade 16-jewel movement, the FAIRFAX. Price in best gold-filled $35.00

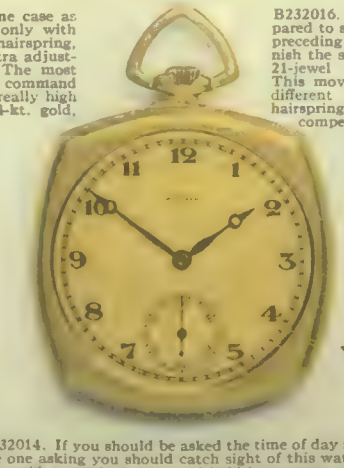
This is another double or hunting-cased watch, only it is in 14-kt. gold.

B232009. The case is, as you will notice, delightfully simple, and the little extra touch given by the monogram adds still further to its beauty. The movement is our 15-jewel ST. JAMES, a capital little timekeeper. Price in 14-kt. case, $40.00
B232010. Exactly the same case as the last watch, with our higher grade, 16-jewel, FAIRFAX movement. Price in 14-kt. case, $45.00



B232013.
$150.00

B232013. Exactly the same case as the two last mentioned, only with our 21-jewel, Breguet hairspring, compensation balance, extra adjusted CENTURY movement. The most extravagant words at our command cannot do justice to this really high grade watch. Price in 14-kt. gold, $150.00



B232016. For those who are not prepared to spend quite so much as the preceding watch calls for, we can furnish the same case exactly with our 21-jewel ROXBOROUGH movement. This movement is adjusted to five different positions, with Breguet hairspring, patent regulator and compensation balance. Price in 14-kt. gold, $100.00

B232016.
$100.00

B232011. This is a good robust 16-size watch for a robust man. It is very strong, and will stand as much tough usage as is good for any watch. The case is quite heavy, is 14-kt. gold and contains our 17-jewel CAVENDISH movement. Price in 14-kt. gold $80.00
B232012. The same case as the last only with our 19-jewel Breguet hairspring, compensation balance, adjusted movement known as the DOWNING STREET. A really great watch. Price in 14-kt. gold, $95.00

B232014. If you should be asked the time of day and the one asking you should catch sight of this watch, it would certainly attract and hold his attention because of its unusual shape. To secure this unique shape nothing has, however, been sacrificed. It is the same reliable strong character only wearing a different suit of clothes. The case is very strong, and yet quite thin and comfortable for the pocket. The movement is a 17-jewel, patent regulator, compensation balance with Breguet hairspring. Something that can be relied upon absolutely for satisfaction. Price in 14-kt. gold $150.00

B232015. If you are seriously thinking of buying a good watch, a really good watch, something that will serve you for life and then go down as an heirloom, this is the watch that you want. Where many other watches are content to tick off the minutes correctly, this watch treats with the seconds also. The movement is our 21-jewel CENTURY, with extra adjustments, Breguet hairspring, patent regulator, compensation balance, etc., and the case is 14-kt. gold, very strong and delightfully comfortable for the pocket. Price in 14-kt. gold $150.00

The EXPRESS MONARCH and EXPRESS LEADER have been authorized as standard since the inception of time service rules in Canada. They are 17- and 19-jewelled and 21- and 23-jewelled respectively, and five-position adjusted. Each movement is accompanied by a certificate of rating as per regulations of Kew Observatory, England.

B233001. 17-Jewel, EXPRESS LEADER gold-filled, $60.00

B233002. 19-Jewel, EXPRESS LEADER, gold-filled, $65.00

B233003. 21-Jewel, EXPRESS MONARCH, gold-filled, $90.00

B233004. 23-Jewel, EXPRESS MONARCH, gold-filled, $100.00

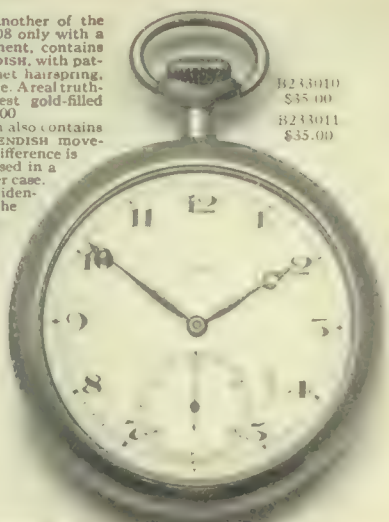
B233010. This is another of the same size as B233008 only with a higher grade movement, contains our 17-jewel CAVENDISH, with patent regulator, Breguet hairspring, compensation balance. A real truth-telling friend in best gold-filled case, $35.00

B233011. This watch also contains our 17-jewel CAVENDISH movement, the only difference is that it is dressed in a sterling silver case. The cost is identical to the above. $35.00

B233005. The movement in this watch is known as the SERVICE, and we guarantee that it will render *good service*. It is a 15-jewel with Breguet hairspring and compensation balance, etc. The case is our best gold-filled, with an inside case, giving added protection. With all this goodness — note the exceptional low cost. $30.00

B233006. In appearance this watch is just like the preceding one, the only difference between this and the preceding watch is that it contains our 16-jewel CATHCART movement, which also has a compensation balance and Breguet hairspring. Price in best gold-filled, $35.00

B233007. In the case of this watch, it is identical to the two above, but the movement is decidedly different. It is our DOWNING STREET movement, 19-jewel, adjusted to heat and cold, Breguet hairspring, patent regulator, compensation balance, etc. The movement should really be used in our highest priced gold case, but we put it in this gold-filled case for those who want the very highest timekeeping qualities at a moderate price. Gold-filled, $55.00



B233010 $35.00

B233011 $35.00

B233008. This watch is somewhat larger and stouter than the others shown on this page. The case is best gold-filled, with screw back and bezel, making it dustproof. The movement is our 15-jewel SERVICE, $25.00

B233009. In sterling silver, $25.00

B233012. When you "pull" this watch out of your pocket your friend will ask "What sort of a watch is that?" — simply because it is so unusual in shape. Best gold-filled thin model case 16-jewel CATHCART movement, Price, $50.00

"Manners Maketh the Man"

OVER the doorway of one of the old colleges of England are inscribed the words: "Manners Maketh the Man."

It is not how the man is dressed but what he himself really is, that is the measure of his worth.

This applies equally to the watches upon this page; although dressed only in our best gold-filled cases they are quite as reliable timekeepers—their manners are quite as good as though clothed in cases of solid gold.

B233013. This watch is well adapted for a man doing light work. The case is our best gold filled, with screw back and front and the movement is a 15-jewel, with Breguet hairspring and compensation balance, etc. Price, $25.00

B233016 Same watch as B233015, only in a gunmetal case, $15.00
B233017 The same, but in sterling silver, $20.00

B233019. The movement of this watch is one that generally finds its place in a fine gold case. It is our 17-jewel CAVENDISH with patent regulator, compensation balance, Breguet hairspring, etc. The case is our best gold-filled — you could never imagine it was other than an all-gold 14-kt. watch Price, $45.00

233019. $45.00

B233014. This is about the lowest priced gold-filled man's watch we can give you consistent with our high standards of quality. As you will notice it is of good size and strength, screw back and front, making it dustproof, whilst the movement is a most serviceable 15-jewel with Breguet hairspring and compensation balance. $20.00

B233016 $15.00

B233017. $20.00

B233015. Here is a great watch for a growing boy or a man who is not very particular at having a high-grade case. The case is of nickel, just as well finished as any sterling or gold filled case, and the movement is a thoroughly good 15-jewel with Breguet hairspring and compensation balance. $15.00

B233018. This watch is intended for those who prefer the double or hunting case rather than an open face. As shown the case lends itself very admirably to the engraving of a monogram or crest. It contains our reliable SERVICE movement with 15-jewels, Breguet hairspring and compensation balance. Price in best gold filled case $35.00

Distinctive Sterling Silver Toiletware

"Beverley" and "Tudor" Engraved

THESE two patterns will appeal to all who appreciate the beauty of the hand-engraved toilet piece.

The nature of the design in these patterns lends itself most effectively to the engraving of initials or a monogram and, undoubtedly, gives it that personal distinction—the very essence of the ideal gift.

Pieces are illustrated about one-third length and width of actual size.

Fine Ivory Toiletware

THIS toiletware combines the beauty of natural ivory with far greater durability. Extremes in temperature will not produce the unsightly cracks that so often mar the genuine article. The mirrors are of the finest bevelled plate glass and the hair brushes contain nothing but the best quality of genuine boar bristles. It is fully up to the high standard that our ivory goods have attained.

The set illustrated may be bought as a whole or the pieces one by one, from time to time, until the set is complete. With the addition of an enamel-filled monogram or initial, this ivory forms a very dainty and acceptable gift.

Remember, please, we guarantee the safe arrival of all shipments

D251701. Twelve pieces, $55.00

Family Silverware

FROM time immemorial woman's pride in home possessions has centered in her silverware. Into it is woven all the cherished memories of family, friendships, hospitality, honour and tradition. No wonder it has become such an indispensable appointment in the well-furnished home. The charm of silverware is compelling when new — but absolutely irresistible when you've owned it and used it — and lived with it for years. Then, too, silverware is such an enduring possession. It lasts for ages — its worth enhanced with the passing time.

"Marie Antoinette"

Tea Table Confidences

OF ALL silverware the tea service is the most cherished. At first a gift—prized because of the donor and the treasured memories of the occasion which it recalls—then an heirloom, enriched with tender reminiscences of tea-table confidences and delicate memories.

Artistic in conception, and perfect in craftmanship, the MARIE ANTOINETTE Tea Service is especially designed to fill this honoured place.

Presentation Silver

DESIGNERS in English silver, dating from the reign of William and Mary, dropped the former very florid designs and articles were made much more severe and simple, thus giving us a foretaste of the QUEEN ANNE period.

Early eighteenth century silver is noted for its purity and simplicity of design. In those days the quantity of silver manufactured was very large, far exceeding that of any former time and the beauty and gracefulness of the designs were far superior to any that had been produced up to then.

The tea services illustrated on these pages follow the best traditions of this period, the designs of which have never been excelled. The silver manufactured during that period is much sought after to-day at very high prices—beauty of form being the chief characteristics rather than elaborate ornamentation.

All pieces are fitted with flush concealed joints and heavily re-inforced covers which add very much both to its value and appearance.

This pattern is simple in design, but sufficiently relieved by the finest hand-engraving to make of it one of the best Tea Services we produce.

Constructive Gift Making

IT IS a beautiful custom when a baby girl is christened to present her with a set of silver spoons. Then a spoon on her birthday, a few pieces at Christmas and other odd times, will soon result in a serviceable set.

We have made provision for just this kind of gift making—this and other patterns are carried year after year and the price of single pieces is almost the same as by the dozen.

Our "Norman" Pattern

Sterling Silver Tableware

ONE of our finest and most popular patterns. As suggested by the name the design embodies the traditional characteristics of the Norman School, with the addition of a delicate hairline border

As typical of all our sterling silver knives, forks and spoons, the Norman is furnished in heavy substantial weights only. Additional pieces can be secured at any time, making possible the collection of a service, piece by piece.

"Old English"

Sterling Silver Tableware

THIS pattern is an exact reproduction of the Old English hand-forged spoon with its strong well-rounded shank.

The addition of a crest, monogram or single letter, in either script or Old English, gives just sufficient decoration to relieve it of severe plainness. It is a pattern one will not tire of and its strength assures generations of usefulness. Made in extra heavy weight only.

Half dozens are sold at dozen rate. In addition, being our own production, pieces can be secured at all times.

"Chantilly"

It is a pattern we have no hesitation in recommending for those to whom superior decoration appeals.

A1. A simple but very effective Lavalliere in platinum, using the three diamonds from the old ring A2.

B1. Some while ago we took the diamonds out of the antique Scarf Pin B2, and as a result we produced a Diamond and Platinum Dinner Ring in a very elaborate hand-pierced design as shown by B1.

C1. This all gold "spread setting" was replaced by the "Platinum Crown Head" C2—showing off the diamond to far greater advantage.

D1. From the diamonds which originally were in Safety Pin D2 and Ring D3, we made up the attractive Lavalliere in diamonds and platinum as shown by D1.

A MESSAGE TO YESTERDAY'S BRIDE

The old-fashioned wedding ring E1 (illustrated below) was sent to us recently for remounting into a more modern shape. We returned wedding ring E2. The same gold was used, so that any sentimental value attached to the original ring was not marred in any way.

E1. Is the old "wide" Wedding Ring. E2 is the modern shape made from the original gold.

F1. Shows a beautiful hand-pierced Platinum Bar Pin, set with the diamonds which we took from the Ring F2 and the Gold Brooch F3.

OLD THINGS MADE NEW

Contrast ring G1 with ring G2—compare the old and the new. Even go further and try and picture how the diamonds would look mounted in the two rings. Most certainly you will agree that the pierced "Platinum Crown Head" setting on a gold shank is by far the superior of the two.

G1. Shows a side view of a pierced "Platinum Crown Head" setting on a gold shank—in graceful contrast with an old-fashioned all-gold mounting (G2).

Old Jewellery Remodelled

into New and Artistic Designs

THE illustrations above are interesting examples of the possibilities in remodelling old jewellery into fashionable and artistic designs. If you have any pieces of diamond jewellery of which you have grown tired, send them to us, and we will gladly submit designs and estimates for remounting. When remodelled, your old jewellery will have an added attractiveness by reason of the newer design, and at the same time the sentimental value which you place on them will be preserved.

Are Your Diamonds Secure in their Settings? Diamond jewellery should be examined periodically, as a loose claw or wornout setting, if neglected, may result in the loss of a stone which is worth many times more than the trifling cost of repair. We are glad at any time to examine settings, and to clean and freshen up your diamond jewellery in the shortest possible time.

Send Your "Little Repairs" to Us. We want to be your "Family Jeweller." If you will send us your small repairs you will find that we not only handle the order promptly, but you will be surprised what can be done in the matter of repairs, in improving an old piece.

Our business has grown to its present size because we have made it a policy of looking after "little repairs" in a way that has brought confidence to those requiring larger things. We always estimate on the cost of such repairs and report to you, in the meantime holding the pieces pending your definite instructions. It is perfectly safe to send your repairs by registered parcel post.

Medals, Club and Class Pins

MOST of the pins and rings which we illustrate are shown merely as examples of some of the work produced in our own factory by our Insignia Department. We would be glad to submit sketches and estimates should you be contemplating similar work. Where prices are quoted articles can be supplied from stock.

On page 108 are shown samples of jewellery which we have remodelled for customers.

In addition to the repairing of jewellery and silverware, we undertake commissions to inspect and repair clocks and public timepieces.

We are also prepared to do any "out-of-the-ordinary" repairs which you might require, such as statuary, leather goods, umbrellas, pipes, opera glasses, and barometers.

Our correspondence department is at your service.

"Duty Free" gifts for your U.S.A. friends are illustrated on page 106
